CAU’s Summer Youth Program

Cornell University
B20 Day Hall
Ithaca, NY 14853-2801

Much more than a camp

Youngsters in CAU’s summer program get a wonderful taste of life at Cornell while enjoying the fun and friendships of a terrific camp. Supervised by well-trained, caring counselors, your child will enjoy

• a wide range of entertaining, educational activities,
• stimulating field trips and healthy, kid-friendly meals, and
• a chance to explore Cornell’s amazing resources and beautiful campus.

This nationally acclaimed summer educational program also features the highest staff-to-youth ratios in day camping. It’s one great program, with four great weeks!

Week I: July 7–11
Week II: July 14–18
Week III: July 21–25
Week IV: July 28–August 1

For ages 3–16

Learning & fun for . . .

LI’L BEARS
ages 3–4
In Discovery Days, Li’l Bears will explore the world of nature through field trips, story books, music, and art. Games, crafts, and outdoor play will round out each safe and happy day—all under the caring supervision of experienced counselors.

Note: Children must be potty trained. (8:30 a.m.–4:30 p.m., M–F) $340

TYKES
ages 5–6
Tykes will discover the habits and habitats of Birds, Bugs, and Bats at Cornell’s Lab of Ornithology, Sapsucker Woods, Beebe Lake, and nearby parks and trails. Field trips, lively discussions, reading, games, and art projects will make this a special week for your little naturalist. (8:30 a.m.–4:30 p.m., M–F) $420

EXPLORERS
ages 7–8
Recreating a world of Castles, Kings, Queens, and Knights, Explorers will build models, celebrate feasts, and learn about discoveries that enlightened the Middle Ages and shaped our modern world. Afternoon swims, field trips, games, and crafts will fill each day with friendly fun. (8:30 a.m.–4:30 p.m., M–F) $440

BIG REDS
ages 9–10
Junior Cornellians
ages 11–12
Big Reds and Junior Cornellians will attend a weeklong course of their choice in the morning (see next page). Afternoon activities will include swimming, bowling, team-building workshops, crafts, and visits to places of interest on and off campus. (8:30 a.m.–4:30 p.m., M–F) $455

TEENS
ages 13–16
Teens can attend under one of two options and choose a weeklong course from those listed on the next page.

Commuter Teens will attend from 8:30 a.m. until 10 p.m., Monday through Friday. Tuition includes the morning course, lunches, dinners, snacks, and the afternoon and evening program.

Resident Teens will live in a dorm with their counselors from Sunday afternoon until Saturday morning. Tuition includes room, meals and snacks, and the full program (morning course plus afternoon and evening activities).

$660

$1,090

It’s one great program, with four great weeks!
Courses for Teens ages 13-16

Outdoor Teen Adventures
Featuring rigorous challenges for novice and experienced climbers supervised by instructors from Cornell Outdoor Education (COE), this program will include teen-level ground games, Hoffman Challenge Course elements, ascents on COE’s West Campus Climbing Wall, and a Tyrolean traverse across Beebe Lake Gorge. If you’re a teen who enjoys non-competitive but highly physical activity, this is a good recreational opportunity in a safe but exciting learning environment.

Additional fee: $140 (Limited enrollment—register now!)

Sailing on Cayuga
This complete introduction to sailing and tying knots, with lectures, demonstrations, and practice on Cayuga Lake, will be taught by certified instructors and supervised by Cornell’s superb Department of Athletics and Physical Education. You must know how to swim and be prepared to fall in and tread water, rain or shine.

Additional fee: $130 (Limited enrollment—register now!)

Science Sampler
Engineering, materials science, chemistry, and biology; each offers hundreds of problems, solutions, concepts, and keys to advances in theory and applied science. You’ll learn about (and replicate) experiments taking place in science labs across campus, work to solve problems and communicate findings, and meet students whose research and enthusiasm make Cornell a world-class environment for study and project design.

Creative Writer: Inspired Writing
The taste of watermelon, the memory of your birthday, the sound of a flowing creek—such sensory, cognitive, and emotional impressions can inspire powerful writing. Working in different settings each day, you’ll combine sights and sounds with details from your life history to create poems, essays, and short stories. With encouragement and expert guidance from a professional writing instructor, you will grow in confidence, range of expression, clarity, and skill.

Courses for Kids ages 3-10

Look at This! Inventors’ Camp
Turn your creative ideas into contraptions, practical devices, and other ingenious inventions. Using basic materials, theories of science and engineering, simple machines, and tips from world-famous inventors, Big Reds will design, construct, test, and evaluate working models, magic illusions, close-up tricks, and robots. This is a hands-on classroom course for mindful and observant students.

Cartoons and Drawing
Using pop culture, comics, and great masterpieces for inspiration, counselors will encourage doodlers and fledgling artists to develop their own signature style. Together they will create characters, sample different styles and techniques, work with color and principles of design, and visit exhibits by student and professional artists.

Program charges
For the weekly program charges, see the registration form to the right. Please note, some morning courses have additional fees.

Payment per week:

- Big Reds: $455
- Tykes: $420
- Explorers: $440
- Junior Cornellians: $455
- Commuter Teens: $660
- Resident Teens: $1,090

Additional fee: $130 (Limited enrollment—register now!)

Outdoor Adventures
If you like to be on the move, you’ll enjoy this active program. In addition to ground-level games and lessons on safety and technique, you’ll have the opportunity to sample group activities on the Hoffman Challenge Course and rappelling on the Lindseth Climbing Wall. Additional fee: $140 (Limited enrollment—register now!)

Sailing on Cayuga
Learn about the parts of a boat and how to tie knots, and get hands-on practice in setting sail and navigating through water. The indoor rainy-day demonstrations and outdoor fun on the lake don’t require any previous sailing experience, but you must know how to swim. Additional fee: $130 (Limited enrollment—register now!)

Courses for Big Reds and Junior Cornellians ages 9-12

Animal Science
Learn about the anatomy, physiology, reproduction, nutrition, health, and wellbeing of farm animals, pets, and reptiles. Through presentations, projects, discussions, and field visits, JCs will discover the scope, diversity, and problems related to the breeding and management of animals and also explore the complex relationships between domestic animals and humans.

Climbing
If you like to be on the move, you’ll enjoy this active program. In addition to ground-level games and lessons on safety and technique, you’ll have the opportunity to sample group activities on the Hoffman Challenge Course and rappelling on the Lindseth Climbing Wall. Additional fee: $140 (Limited enrollment—register now!)

Courses

The following morning enrichment programs, taught by Cornell students, emphasize demonstrations and a hands-on approach to learning while introducing youth and young adolescents to college and career opportunities within a field of interest. Big Reds, Junior Cornellians, and Teens register for one course per week.

Courses for Big Reds ages 9–10

Look at This! Inventors’ Camp

Turn your creative ideas into contraptions, practical devices, and other ingenious inventions. Using basic materials, theories of science and engineering, simple machines, and tips from world-famous inventors, Big Reds will design, construct, test, and evaluate working models, magic illusions, close-up tricks, and robots. This is a hands-on classroom course for mindful and observant students.

Frog Squad

Investigating the ecosystems of Cornell’s campus and its terrific labs and natural environs, Big Reds will observe bird and amphibian habitats, learn about frogs and toads, explore gorges, and collect fossils. Each student will create a colorful field journal and artful diorama of discoveries in the field to take home at week’s end.

Courses for Big Reds and Junior Cornellians ages 9–12

Outdoor Adventures

If you like to be on the move, you’ll enjoy this active program. In addition to ground-level games and lessons on safety and technique, you’ll have the opportunity to sample group activities on the Hoffman Challenge Course and rappelling on the Lindbergh Climbing Wall. Additional fee: $140 (Limited enrollment—register now!)

Using pop culture, comics, and great masterpieces as inspiration, counselors will encourage doodlers and fledgling artists to develop their own signature style. Together they will create characters, sample different styles and techniques, work with color and principles of design, and visit exhibits by student and professional artists.

Program charges

For the weekly program charges, see the registration form to the right. Please note, some morning courses have additional fees.

The charge for Li’l Bears, Tykes, Explorers, Big Reds, and Junior Cornellians includes the full program ($8:30 a.m.–4:30 p.m., Monday through Friday), healthy lunches, fresh fruit, and snacks.

Two Teen options are available:

• The charge for Commuter Teens includes the full program ($8:30 a.m.–10 p.m., Monday through Friday), lunches, dinners, and snacks.

• The charge for Residential Teens includes the full program (Sunday afternoon until Saturday morning) as well as room and board.

Courses for Teens ages 13–16

Outdoor Teen Adventures

Featuring rigorous challenges for novice and experienced climbers supervised by instructors from Cornell Outdoor Education (COE), this program will include teen-level ground games, Hoffman Challenge Course elements, ascents on COE’s West Campus Climbing Wall, and a Tyrolean traverse across Beebe Lake Gorge. If you’re a teen who enjoys non-competitive but highly physical activity, this is a good recreational opportunity in a safe but exciting learning environment.
