Extraordinary destinations, exceptional faculty, unforgettable adventures
Incomparable faculty guides
CAU’s travel adventures are designed and led by some of Cornell’s most engaging faculty members. Passionate about their subjects, with access to behind-the-scenes tours, our faculty leaders will help you delve deeply into the culture and history of the places you visit.

Unforgettable adventures
Whether swimming with seals, weaving textiles, or ziplining through the canopy, you can expect an extraordinary experience when you travel with CAU—further enhanced by top-notch accommodations, distinctive cuisines, and inclusive prices.

Personalized travel planning
With customized itineraries, continual faculty guidance and companionship, and a dedicated CAU host, our meticulous attention to detail leaves you free to enjoy your journey to the fullest.

Welcoming travel companions
CAU travelers are known for their great camaraderie and interest in compelling places and subjects—so you’ll enjoy the wonders of the world with others who share your curiosity and sense of adventure.

CAU has been featured in Frommer’s, The New York Times, The Wall Street Journal, Yahoo! Travel, Kiplinger’s, and Travel + Leisure. Join us and discover for yourself why so many savvy travelers select CAU as their adventure headquarters.

“Exhilarating!”
—Arthur Frommer, CAU summer participant

“Wonderful accommodations, food, and service. Spellbinding lectures and great excursions. A wonderful group of participants. . . . We laughed a lot.” —Mary Kate Owens

“Simply terrific—the surroundings, the natural wonders, the accommodations, the organization, the instructor. This tour had it all.” —Bob Scott ’73

“The stimulating lectures of Cornell faculty set the stage for our exploration and many hands-on experiences. The planning was superb.” —Joan H. Weigle
Australia
Magical Land, Seas, and Cities

Led by Cornell ecologist Cole Gilbert and biologist Linda Rayor—seasoned explorers of Australia’s natural and cultural habitats—we’ll discover the marvelous contrasts of this “land down under,” from the art and architecture of Melbourne and Sydney to the dazzling marine life around the Great Barrier Reef.

We’ll enjoy a private tour of the National Gallery of Victoria in Melbourne before departing for wilder environs: Healesville Sanctuary, home to wallabies, wombats, dingoes, kangaroos, and more than 200 varieties of native birds; Sherbrook Forest, with its soaring hardwoods; Uluru, or Ayers Rock, a large sandstone formation sacred to the aboriginal people of the area; and Daintree Rainforest, where we’ll travel by skyrail through the canopy.

Once aboard Coral Expeditions II, we’ll spend three days cruising and snorkeling.

We’ll visit Thetford Reef and Sudbury Cay, replete with tropical fishes and colorful corals; the mangrove ecosystems of Hinchinbrook Channel; the golden beaches of Pelorus Island, with its giant clams; Dunk Island Rainforest; and the World Heritage underwater wonderland Nathan’s Reef. We’ll end our travels together in Sydney, with its magnificent harbor bridge and storied opera house.

Date: February 10–23, 2017 (14 days)
Cost: DO $9,945–$10,305, SS $2,200
Activity level: K

DESTINATION

FACULTY
Cole Gilbert and Linda Rayor teach in the Department of Entomology at Cornell. Specializing in biology, entomology, and biodiversity, Cole has received numerous awards for his teaching. Linda specializes in spider and insect behavior and has appeared in the TV series Monster Bug Wars.

INFORMATION
Baja
An Ecologist’s Exploration

Bordered by the wild Pacific Ocean and the protected Sea of Cortez, Baja’s desert peninsula is a haven for exotic birds, plants, and terrestrial and marine animals. Its beaches, tide pools, and surf offer a perfect blend of smooth sand, sea, and sunshine, where one can kayak through turquoise waters and swim with sea lions.

Eliot Miller and Sarah Wagner, two exceptional birders and evolutionary biologists from Cornell’s acclaimed Lab of Ornithology, will lead this active study tour for adults and families with teens. We’ll explore Todos Santos, an official Pueblo Magico, backed by the Sierra de Laguna Mountains and rimmed with lush gardens. We’ll hike cliffs high above the shore with perfect views of wildlife and unusual cacti.

At Espiritu Santo National Park, we’ll watch for whales, dolphins, sea turtles, manta rays, and tropical fish as well as a range of bird species, including Blue-footed Boobies and Reddish Egrets. We’ll view rock art left by the extinct Guaycura and Pericu Indians and visit Magdalena Bay, the prime calving ground for gray whales, before concluding our journey at La Paz, with its colonial buildings, markets, and sophisticated cafes.

Snorkeling with sea lions

Sea of Cortez

DESTINATION

FACULTY

Eliot Miller is a postdoctoral fellow at the Cornell Lab of Ornithology. He holds PhDs from the University of Missouri, St. Louis, and Macquarie University in Sydney. Sarah Wagner works at the Lab of Ornithology on curriculum for the new Handbook of Bird Biology and the Kids Discover the Trail program.

Date: February 18–26, 2017 (9 days)
Cost: DO $6,770, SS $3,500, T $4,580
Activity level: ⚠️
Russia

Moscow and St. Petersburg—“Strange, Alluring, Enthralling”

Russia remains a fascinating study in contrasts—at once well-bred and wild, huge and intimate, formal and freewheeling. Our experience of the historical and cultural riches of Moscow and St. Petersburg will be deepened by behind-the-scenes site visits, private moments in Russian homes, and illuminating lectures by two Russian scholars and by our faculty leader, Penny Von Eschen. An extremely engaging professor of history, Penny writes and teaches on the intersections of U.S. and Soviet cultural and political history from the late nineteenth century to the present.

In Moscow, the economic and political center of the country, we’ll visit Novodevichy Convent, the Grand Choral Synagogue, the Kremlin, Red Square, and the World War II Museum at Victory Park, as well as the world-renowned metro stations. We’ll also enjoy an evening concert and a private tasting at the Vodka Museum. In St. Petersburg, we’ll take in the Hermitage Museum with its spectacular Winter Palace; the Fabergé Museum; the Russian Museum; the Catherine Palace; the Peter and Paul Fortress; the lovely Yusupov Palace; and Shostakovich’s summer cabin. We’ll enjoy a ballet master class, a concert or opera at an illustrious theater, and borscht and piroshky in the dacha of a St. Petersburg resident.

INFORMATION

Date: March 30–April 10, 2017 (12 days)
Cost: DO $7,683, SS $750
Activity level: ⚽️
New York, NY

A Spring Theater Weekend

“We’re actors—we’re the opposite of people!” declaims The Player in Tom Stoppard’s Rosencrantz & Guildenstern Are Dead. Isn’t it ironic, then, that good actors can persuade us to suspend our disbelief and accept wholeheartedly that they are who they pretend to be? That correspondence between reality and representation is just one of the themes we’ll explore as we enjoy three of the best new productions on and off Broadway.

Honing our understanding of the plays we’ll see will be CAU superstar Glenn Altschuler, whose enduring interest in contemporary American theater will be clear in his skillful lectures and our lively discussions. We’ll begin with an afternoon session at the Cornell Club, followed by dinner and an evening performance. On the following two days, we’ll meet in the morning for a lecture and discussion, enjoy lunch together, and attend a Saturday evening performance and Sunday matinee.

The program fee includes everything but hotel and breakfasts—so make reservations at the Cornell Club if you’re a member, or choose a hotel, a friend’s couch, or your very own bed. Reserve your space with a deposit, make final payment for the program after Glenn selects the plays, and then join us as we immerse ourselves in the liveliest of the arts in spirited New York.

INFORMATION

Date: April 21–23, 2017 (3 days)
Program cost: $1,699
Activity level: ⚽

Glenn C. Altschuler is dean of the School of Continuing Education and Summer Sessions and the Thomas and Dorothy Litwin Professor of American Studies at Cornell.

cau.cornell.edu 6.7
Cape May

Spring Migration—Birds and Their Habitats

The shadow of a hawk glides overhead. Herons and shorebirds search for food in tidal pools. Salt marshes and woodlands vibrate with life. Few sites on the East Coast of the United States are such compelling stopovers for migrating birds as Cape May, the southernmost point of New Jersey. Waterfowl, birds of prey, shorebirds, and songbirds all converge there—especially in the spring, when the weather is right, protective cover reassuring, and food plentiful.

Our aim for this long weekend seminar is to explore wildlife at a most exciting time of the year in a beautiful setting. In the company of Eliot Miller and Sarah Wagner, two exceptional birders and evolutionary biologists from Cornell’s acclaimed Lab of Ornithology, we will observe the characteristics, behaviors, and habitats of resident and migrant species of birds, from the Summer Tanager to the Clapper Rail to the Black-bellied Plover. On daily trips and in evening lectures—and perhaps during a half-day coastal foray by boat—we’ll scout natural environments from dunes to marshes, wetlands to woodlands to shore.

Information

Eliot Miller is a postdoctoral fellow at the Cornell Lab of Ornithology. He holds PhDs from the University of Missouri, St. Louis, and Macquarie University in Sydney.

Sarah Wagner works at the Lab of Ornithology on curriculum for the new Handbook of Bird Biology and the Kids Discover the Trail program.

Date: May 11–14, 2017 (4 days)
Cost: DO $2,114, SS $300
Activity level: ⭐⭐⭐
Atlantic Ocean

Bilbao to Paris—European History Aboard Sea Cloud II

The Atlantic Ocean has played an extraordinary role in the history and development of Europe and the world, from the intrepid seafaring adventures of the early Celtic, Viking, and Basque sailors to the Age of Exploration and the epic world wars of more recent centuries. Bilbao and Paris will bookend this voyage, with ports of call along the coast of Spain and France such as San Sebastian and St. Malo. At these we’ll visit ancient artifacts such as Brittany’s enigmatic Carnac stones, arranged 3,000–4,500 years ago, and the Bayeux Tapestry in Normandy, chronicling the 1066 AD Norman invasion of England. We’ll explore World War II German underground bunkers in La Rochelle and U-boat pens in Lorient.

As we travel, Cornell historian Barry Strauss will tell us about ancient civilizations and their battles, while Princeton’s Kevin Weddle will inform us about the first civilizations to sail far out into the vast Atlantic and about the epic battles that followed. We’ll enjoy an intimate experience aboard the Sea Cloud II, one of the most luxurious vessels afloat, combining the seafaring elegance of a bygone era with the highest modern standards. Throughout the voyage, we’ll enjoy the great food and wine for which these regions are celebrated.

FACULTY

Barry Strauss is the Bryce and Edith M. Bowmar Professor in Humanistic Studies at Cornell, chair of the Department of History, an expert in Greek and Roman military history, and author of Masters of Command (2012).

INFORMATION

Date: June 5–16, 2017 (12 days)
Cost: DO starts at $6,395, SS starts at $3,500
Activity level: ☀️
Italy

Puglia and Matera—Their History, Art, Architecture, and Cuisine

Originally part of Magna Graecia, Puglia—the amazing heel of Italy’s boot—was colonized by the Greeks and later conquered by the Romans. It also hosted Byzantines, Goths, Normans, and Venetians. Collectively, they left behind one of Italy’s richest archaeological and cultural regions.

Focusing primarily on treasures from the Middle Ages and Baroque Period, Cornell’s Jeffrey Blanchard, an expert on Italian art, architecture, and city planning, will guide our exploration of this fascinating locale. We’ll visit the breathtaking seaport towns of Trani and Bari, both with wonderful Romanesque cathedrals, and Frederick II’s thirteenth-century Castel del Monte, a UNESCO heritage site universally valued for its formal perfection.

Among other towns we’ll visit are magnificent Lecce, noted for its carefully conserved baroque architecture; ancient Otranto; and Ostuni, with its white citadel upon the hill. We will also explore the southern Italian city of Matera, founded by the Romans in the third century BCE and best known for its sassi, its ancient caves, where habitations were dug into calcareous rock. Amid the marvels of its justly famous landscapes and ancient olive groves, we’ll find time to savor Puglia’s storied food and wine.

Date: June 8–16, 2017 (9 days)
Cost: DO $5,624, SS $425
Activity level: 🛏️

Jeffrey Blanchard is a visiting professor of architecture at Cornell and the academic and field trip coordinator for Cornell in Rome. He holds a BA from Stanford University and a master’s degree from Yale University.
Quebec to Boston

**Autumn Splendor in Canada and New England**

As leaves burst into color on the shore, we’ll cruise from Quebec to New England along dramatic coastlines rising from waters rich in aquatic life. Led by historian Mary Beth Norton, a Quebec enthusiast and internationally renowned scholar of American colonial history, we’ll visit some of the fascinating coastal towns and villages that preserve a storied past.

In the Magdalen Islands of Quebec, we will learn about the culture of the fiercely proud Acadians. We’ll step back in time at Lunenburg in Nova Scotia, the best-preserved British settlement in North America and a virtual museum of eighteenth-century life. We’ll explore the nineteenth-century resort community of Bar Harbor, Maine, where the Rockefellers and their friends entertained summer guests and where John D. Rockefeller designed the trails that still crisscross Mount Desert Island.

On board, we’ll look out for the several species of whale that thrive in the krill-rich waters of Saguenay and Tadoussac. We’ll enjoy the amenities, exceptional crew, and fine food of the elegant, beautifully designed, and technologically sophisticated small ship *Le Soleal*. When we land in Boston, Mary Beth—an expert on the late-seventeenth-century witchcraft hysteria—will lead us on an excursion to Salem.

Cuba

Havana and Washington—Renewed Relations

Cuba and the United States startled the world in December 2015 by announcing their agreement to normalize relations after a half-century of hostility. What a perfect occasion to visit Cuba to contemplate the changes that this renewed diplomacy might inspire for both countries!

We’ll stay at Hotel Nacional, whose American guests—from musicians to the mob—are legendary. Our Cuban guides will introduce us to the haunting beauties of Old Havana and sites important to our interwoven pasts: Havana harbor, site of the sinking of the USS Maine, and the Capitolio and the Presidential Palace, where U.S.-picked politicians (including former president Mario Garcia Menocal, a Cornell alum) ruled Cuba. On two day trips, we’ll visit Matanzas, the “Athens of Cuba,” and the sunny landscapes and caves of the Valle de Viñales.

Eminent Cuban scholars will talk with us about how Cuba is changing—politically, socially, and economically. For our faculty leader, historian Maria Cristina Garcia, this change is personal; she was born in Cuba and moved to the U.S. in the early 1960s. She will shed light on what “normalized” relations might mean going forward. All the while, we will experience Cuba’s music, its architectural splendors, and the warmth of its people, even perhaps drinking a toast to Hemingway at his favorite bar, El Floridita.
South Africa

Nature and Human Nature

From its exceptional biodiversity to its complex and troubled social and political history, South Africa provides an extraordinary study of nature and human nature. In Cape Town, we’ll visit a township and the Company’s Garden, which will give us a better understanding of the history of apartheid. At Robben Island, we’ll see Nelson Mandela’s tiny cell and have a home-hosted dinner with Christo Brand, Mandela’s warden. We’ll also take aerial tram rides to spectacular Table Mountain National Park and Cape Peninsula, then visit Boulders Beach with its resident population of rare penguins.

Leaving Cape Town, we’ll fly to our safari home at Thornybush Game Lodge, a private preserve, where we’ll enjoy dawn and dusk game drives and nature walks in the bush with experienced guides and faculty leader Irby Lovette, ecologist, evolutionary biologist, and expert on African birds. We’ll see elephants, lions, tigers, rhinos, impalas, warthogs, and a wealth of birds, from Marabou Storks to Southern Carmine Bee-eaters, when all of them are most active.

We’ll fly to Johannesburg, where we will tour the Apartheid Museum and the inner city neighborhood of Maboneng, now a thriving center of art and commerce. A local activist will guide us through Kliptown, the oldest residential district of Soweto, where the Freedom Charter was signed in 1955.

 destino
Thailand
Exploring Asia’s Paradise—
A Family-Friendly Holiday

From the delights of its capital, Bangkok, to the natural wonders of its national parks, Thailand is a jewel of a destination. This trip is designed for adults and families traveling with kids (eight and older) who seek nature, culture, and great adventure.

While in Bangkok, we’ll ride a boat down the Chao Phraya River to the Temple of the Reclining Buddha and the Grand Palace. In Chiang Mai Province, we’ll explore “the roof of Thailand,” Doi Inthanon National Park, known for its spectacular views, waterfalls, temple ruins, and more than 300 species of birds, including the Yellow-cheeked Tit and the Green-tailed Sunbird. Throughout this tour, delightful CAU faculty leader Scott Taylor, an expert on birds and on evolutionary biology, will greatly enrich our appreciation of nature.

We’ll visit the Karen hill tribe village and its working coffee plantation, ride an elephant at Patara Elephant Farm, and give alms at Thailand’s most sacred Buddhist temple, Wat Phra That. A little further south in Koh Yao Noi, we’ll visit Hong Marine National Park, where we’ll see gibbon monkeys up close. During this active tour, we’ll also learn takraw (kick volleyball), zipline through a forest canopy, swim, and snorkel. Do join the fun!

Date: Dec. 21, 2017–Jan. 1, 2018 (12 days)
Cost: DO $8,034, SS $2,000, C/T $6,455
Activity level: **

Scott A. Taylor is a Fuller Evolutionary Biology Fellow at Cornell’s Lab of Ornithology and was recently awarded Canada’s prestigious Banting Fellowship.

Grand Palace, Bangkok

Patara Elephant Farm

INFORMATION

DESTINATION

FACULTY
Activity Level

Easy. Walking is generally over level ground for short distances. May require ability to climb stairs or to stand for periods of time.

Slightly strenuous. May require extended walking over uneven ground as well as the ability to climb stairs and to stand for considerable periods of time.

Moderately strenuous. Assumes the ability to walk for more than a mile over terrain that is sometimes rough, with varying elevations. A good sense of balance and athletic shoes or hiking boots are essential, and walking poles may be desirable.

Strenuous. Designed for those who are fit and accustomed to negotiating hilly, rough terrain. Hiking boots are essential, and walking poles may be desirable.

Standard Inclusions
Program charges include all lodging during the program; meals specified on the itinerary; site visits; entrance fees; guides; any internal train, bus, or air travel; emergency medical-evacuation insurance on international trips; all taxes and gratuities; management services; and the full educational program.

Standard Exclusions
Program charges do not include international airfare; visa and passport fees; luggage, cancellation, and accident insurance; meals and beverages not specified in the itinerary; and personal expenses such as laundry, telephone calls, faxes, and e-mail service.

Travel Cancellation Insurance
We strongly advise you to purchase travel cancellation insurance in case you cannot go on a trip for which you’ve registered. Unexpected changes in travelers’ lives, newer and more restrictive airline penalties, earlier and larger nonrefundable payments to tour operators and hotels, and volatile times make such insurance particularly wise. CAU can rarely recover monies we have paid in your name after the full payment deadline.

How to Register
Register online at cau.cornell.edu or use the form in the back of this brochure. If you have questions please contact our office at 607.255.6260 or cauinfo@cornell.edu.

The Rhone Valley—A Wine and Gastronomic Adventure

Wine and food will be the primary focus of this tour through the stunningly beautiful countryside of the Rhone Valley. Led by wine expert and restaurateur Abby Nash, we'll visit some of the finest vineyards and wineries of the northern Rhone, whose harsh winters and warm summers favor the Syrah grape, and the southern Rhone, whose milder winters and hot summers produce the famous Chateauneuf-du-Pape blend, as well as some exceptional whites.

Those who relish cultural treasures will also find much to enjoy here, such as Lyon’s Musee des Beaux Arts and its Renaissance Quarter, the Pont d’Avignon, the Roman and Romanesque monuments of Arle, and even the nougats of Montelimar. Multiple tastings and a terroir dinner will round out this delightful adventure. Participants in previous tours with Abby say they’ve never laughed as much and as hard. It will truly be a feast for all the senses.

New Paltz, NY

The 2016 Presidential Election—A Weekend Seminar

In the midst of a presidential election cycle that trumps its modern predecessors for tumult and rancor, little seems clear. Will the electorate fall in line behind established or new leaders—all deeply controversial? Will the most divided U.S. government in recent memory find ways to talk across the aisle or remain intractable? How will the outcome of the election, up ticket and down, affect U.S. relationships around the world?

The majestic Mohonk Mountain House will provide a wonderful Victorian setting for lectures and lively discussions led by Glenn Altschuler and Nick Salvatore, who will analyze the presidential, gubernatorial, and Congressional contests and hazard predictions about the outcomes. We’ll also enjoy excellent and abundant meals and free time on Saturday to explore Mohonk’s splendid surroundings.

FACULTY

Abby S. Nash taught courses at Cornell about wine in culture and history—the only such in the U.S.—from 1991 to 2005. He attended La Varenne Ecole de Cuisine, Cordon Bleu, and L’Academie du Vin in Paris and was owner chef of Abby’s Restaurant in Ithaca.

Glenn C. Altschuler is dean of the School of Continuing Education and Summer Sessions and the Thomas and Dorothy Litwin Professor of American Studies at Cornell. Nick Salvatore is the Maurice and Hinda Neufeld Founders Professor of Industrial and Labor Relations at Cornell.

Eyes to the Sky over Flagstaff—Then and Now

Guided by astronomers Martha Haynes and Riccardo Giovanelli, we’ll visit the Lowell Observatory’s planetarium and its solar and nighttime viewing facilities. There and at the nearby Discovery Channel Telescope, we will learn how human understanding of the universe evolved, first by viewing with the naked eye the motion of the sun, moon, planets, and stars and later through astounding images obtained by high-tech facilities on the ground and in space.

At nearby Wupatki National Monument, we’ll see ruins of the dwellings of desert peoples from 11,000 BCE onward. We’ll also tour Hopi land and enjoy a traditional dinner at the cultural center, followed by star gazing with our Hopi guide—joining those who, through the millennia, have turned their eyes to the night sky to make meaning of their lives and to marvel at the workings of the universe.

FACULTY
Martha Haynes, the Goldwin Smith Professor of Astronomy, teaches in the Department of Astronomy at Cornell. She and her husband, Riccardo Giovanelli—also a Cornell professor of astronomy—shared the 1989 Henry Draper Medal of the National Academy of Sciences.

Chile

Wild Lands of Patagonia—A Family-Friendly Expedition

Explore both the wild and civilized faces of Chilean Patagonia with Warren Allmon, a knowledgeable and enthusiastic leader who will enlighten us about the land’s startling geology and natural history. We’ll hike, raft, and ride on horseback among mountains, volcanoes, waterfalls, and glaciers, with condors circling above, llamas grazing, and penguins feeding their chicks.

We’ll visit places that very few people ever see, ending at the astounding Torres del Paine National Park, with its extraordinary mountains and wildlife.

In Santiago we’ll enjoy the Museum of Pre-Columbian Art, and in the colonial town of Frutillar we’ll attend a classical music recital at the opera house. In Chiloe we’ll enjoy a home-hosted curanto (barbeque). And at Remota, our splendid, all-inclusive lodge, we’ll select our own activities each day, from fishing to horseback riding to hiking. Asombroso!

FACULTY
Warren Allmon is director of Ithaca’s Museum of the Earth and Paleontological Research Institution and the Hunter R. Rawlings III Professor of Paleontology in Cornell’s Department of Earth and Atmospheric Sciences. He is the author of more than two hundred publications.

CAU Summer

Plan now to make CAU part of your summer!

CAU offers inspiring weeklong programs on the beautiful Cornell campus every summer. You can study subjects ranging from cooking and gardening to art, politics, and world affairs with engaging Cornell experts and in the company of bright and congenial classmates.

CAU also offers programs for kids (ages three to fifteen) that combine entertaining, educational activities with all the fun and friendships of a great camp.

Ours is the only university program in the country that offers such a wide range of options for all members of the family. So come on your own, with your significant other, with friends, or bring the kids and grandkids. We look forward to seeing you next summer!

“CAU has given me the opportunity to study subjects I had not been able to take as an undergraduate, from top professors with a passion for their fields.” —Sue Tafler ’68
